

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended December 31, 2021

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from ____ to ____

COMMISSION FILE NUMBER 001-37487

AETHLON MEDICAL, INC.
(Exact name of registrant as specified in its charter)

NEVADA
(State or other jurisdiction of incorporation or organization)

13-3632859
(I.R.S. Employer Identification No.)

11555 SORRENTO VALLEY ROAD, SUITE 203, SAN DIEGO, CA
(Address of principal executive offices)

92121
(Zip Code)

(619) 941-0360
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol	Name of each exchange on which registered
Common Stock	AEMD	The Nasdaq Capital Market

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes NO

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer", "smaller reporting company", and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated Filer
Non-accelerated Filer

Accelerated Filer
Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

As of February 11, 2022, the registrant had outstanding 15,408,231 shares of common stock, \$0.001 par value.

AETHLON MEDICAL, INC. AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
December 31, 2021

1. NATURE OF BUSINESS AND BASIS OF PRESENTATION ORGANIZATION

Aethlon Medical, Inc. and its subsidiary (collectively, “Aethlon”, the “Company”, “we” or “us”), is a medical technology company focused on developing products to diagnose and treat life and organ threatening diseases. The Aethlon Hemopurifier is a clinical-stage immunotherapeutic device designed to combat cancer and life-threatening viral infections. In cancer, the Hemopurifier is designed to deplete the presence of circulating tumor-derived exosomes that promote immune suppression, seed the spread of metastasis and inhibit the benefit of leading cancer therapies. The U.S. Food and Drug Administration, or FDA, has designated the Hemopurifier as a “Breakthrough Device” for two independent indications:

- the treatment of individuals with advanced or metastatic cancer who are either unresponsive to or intolerant of standard of care therapy, and with cancer types in which exosomes have been shown to participate in the development or severity of the disease; and
- the treatment of life-threatening viruses that are not addressed with approved therapies.

We believe the Hemopurifier can be a substantial advance in the treatment of patients with advanced and metastatic cancer through the clearance of exosomes that promote the growth and spread of tumors through multiple mechanisms. We are currently conducting a clinical trial in patients with advanced and metastatic head and neck cancer. We are initially focused on the treatment of solid tumors, including head and neck cancer, gastrointestinal cancers and other cancers. As we advance our clinical trials, we are in close contact with our clinical sites to navigate and assess the impact of the COVID-19 global pandemic on our clinical trials and current timelines.

On October 4, 2019, the FDA approved our Investigational Device Exemption, or IDE, application to initiate an Early Feasibility Study, or EFS, of the Hemopurifier in patients with head and neck cancer in combination with standard of care pembrolizumab (Keytruda). The primary endpoint for the EFS, which is designed to enroll 10 to 12 subjects at a single center, is safety, with secondary endpoints including measures of exosome clearance and characterization, as well as response and survival rates. This study, which is being conducted at the UPMC Hillman Cancer Center in Pittsburgh, PA, has treated two patients and is in the process of recruiting additional patients. We are considering adding one or more additional sites to this trial to accelerate patient recruitment and we are also considering starting additional trials in other forms of cancer.

We also believe the Hemopurifier can be part of the broad-spectrum treatment of life-threatening highly glycosylated, or carbohydrate coated, viruses that are not addressed with an already approved treatment. In small-scale or early feasibility human studies, the Hemopurifier has been used in the past to treat individuals infected with human immunodeficiency virus, or HIV, hepatitis-C, and Ebola.

Additionally, *in vitro*, the Hemopurifier has been demonstrated to capture Zika virus, Lassa virus, MERS-CoV, cytomegalovirus, Epstein-Barr virus, Herpes simplex virus, Chikungunya virus, Dengue virus, West Nile virus, smallpox-related viruses, H1N1 swine flu virus, H5N1 bird flu virus, and the reconstructed Spanish flu virus of 1918. In several cases, these studies were conducted in collaboration with leading government or non-government research institutes.

On June 17, 2020, the FDA approved a supplement to our open IDE for the Hemopurifier in viral disease to allow for the testing of the Hemopurifier in patients with SARS-CoV-2/COVID-19 in a New Feasibility Study. That study is designed to enroll up to 40 subjects at up to 20 centers in the U.S. Subjects will have established laboratory diagnosis of COVID-19, be admitted to an intensive care unit, or ICU, and will have acute lung injury and/or severe or life-threatening disease, among other criteria. Endpoints for this study, in addition to safety, will include reduction in circulating virus as well as clinical outcomes (NCT # 04595903). Under Single Patient Emergency Use regulations, the Company has also treated two patients with COVID-19 with the Hemopurifier.

In September 2021, we entered into an agreement with PPD, Inc., or PPD, a leading global contract research organization, or CRO, to oversee our U.S. clinical studies investigating the Hemopurifier for critically ill COVID-19 patients. We now have three hospitals, Hoag Newport Beach, Hoag Irvine, and Loma Linda Medical Center, fully activated for patient enrollment and they are actively screening patients for the trial. Together with PPD, we are currently advancing site readiness for LSU Shreveport, Valley Baptist Medical Center in Texas, University of California Davis, University of Miami Medical Center, and Thomas Jefferson Medical Center. We are in discussions to bring on board other key U.S. medical centers.

We also obtained ethics review board approval and entered into a clinical trial agreement with Medanta Medicity Hospital, a multi-specialty hospital in Delhi NCR, India, for a COVID-19 clinical trial at that location. We have completed all site initiation activities at Medanta Medicity Hospital and this site is now open for enrollment and is actively screening patients.

We are also the majority owner of Exosome Sciences, Inc., or ESI, a company formed to focus on the discovery of exosomal biomarkers to diagnose and monitor life-threatening diseases. We consolidate ESI's activities in our consolidated financial statements.

Successful outcomes of human trials will also be required by the regulatory agencies of certain foreign countries where we plan to sell the Hemopurifier. Some of our patents may expire before FDA approval or approval in a foreign country, if any, is obtained. However, we believe that certain patent applications and/or other patents issued more recently will help protect the proprietary nature of the Hemopurifier treatment technology.

In addition to the foregoing, we are monitoring closely the impact of the COVID-19 global pandemic on our business and have taken steps designed to protect the health and safety of our employees while continuing our operations. Given the level of uncertainty regarding the duration and impact of the COVID-19 pandemic on capital markets and the U.S. economy, we are unable to assess the impact of the worldwide spread of SARS-CoV-2 and the resulting COVID-19 pandemic on our timelines and future access to capital. We are continuing to monitor the spread of COVID-19 and its potential impact on our operations. The full extent to which the COVID-19 pandemic will impact our business, results of operations, financial condition, clinical trials, and preclinical research will depend on future developments that are highly uncertain, including actions taken to contain or treat COVID-19 and their effectiveness, as well as the economic impact on national and international markets.

Our executive offices are located at 11555 Sorrento Valley Road, Suite 203, San Diego, California 92121. Our telephone number is (619) 941-0360. Our website address is www.aethlonmedical.com.

Our common stock is listed on the Nasdaq Capital Market under the symbol "AEMD."

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

During the three months ended December 31, 2021, there were no changes to our significant accounting policies as described in our Annual Report on Form 10-K for the fiscal year ended March 31, 2021.

Basis of Presentation and Use of Estimates

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles, or GAAP, for interim financial information and with the instructions to Form 10-Q and Article 8 of the Securities and Exchange Commission, or SEC Regulation S-X. Accordingly, they should be read in conjunction with the audited financial statements and notes thereto for the fiscal year ended March 31, 2021, included in the Company's Annual Report on Form 10-K filed with the SEC on June 24, 2021. The accompanying unaudited condensed consolidated financial statements include the accounts of Aethlon Medical, Inc. and its majority-owned subsidiary. All significant inter-company transactions and balances have been eliminated in consolidation. The unaudited condensed consolidated financial statements contain all normal recurring accruals and adjustments that, in the opinion of management, are necessary to present fairly the condensed consolidated financial statements as of and for the nine months ended December 31, 2021, and the condensed consolidated statement of cash flows for the nine months ended December 31, 2021. Estimates were made relating to useful lives of fixed assets, impairment of assets, share-based compensation expense and accruals for clinical trial and research and development expenses. Actual results could differ materially from those estimates. The accompanying condensed consolidated balance sheet at March 31, 2021 has been derived from the audited consolidated balance sheet at March 31, 2021, contained in the above referenced 10-K. The results of operations for the nine months ended December 31, 2021 are not necessarily indicative of the results to be expected for the full year or any future interim periods.

Reclassifications

Certain prior year balances within the unaudited condensed consolidated financial statements have been reclassified to conform to the current year presentation.

LIQUIDITY AND GOING CONCERN

Management expects existing cash as of December 31, 2021 to be sufficient to fund the Company's operations for at least twelve months from the issuance date of these condensed consolidated financial statements.

Restricted Cash

To comply with the terms of our laboratory and office lease and our new lease for our manufacturing space, see Note 12, we caused our bank to issue two standby letters of credit, or the L/Cs, in the aggregate amount of \$87,506 in favor of the landlord. The L/Cs are in lieu of a security deposit. In order to support the L/Cs, we agreed to have our bank withdraw \$87,506 from our operating accounts and to place that amount in a restricted certificate of deposit. We have classified that amount as restricted cash, a long-term asset, on our balance sheet.

2. LOSS PER COMMON SHARE

Basic loss per share is computed by dividing net loss by the weighted average number of common shares outstanding during the period of computation. Diluted loss per share is computed similar to basic loss per share, except that the denominator is increased to include the number of additional dilutive common shares that would have been outstanding if potential common shares had been issued, if such additional common shares were dilutive. Since we had net losses for all periods presented, basic and diluted loss per share are the same, and additional potential common shares have been excluded, as their effect would be antidilutive.

As of December 31, 2021 and 2020, an aggregate of 1,587,759 and 2,626,485 potential common shares, respectively, consisting of shares underlying outstanding stock options, warrants and unvested restricted stock units, were excluded, as their inclusion would be antidilutive.

3. RESEARCH AND DEVELOPMENT EXPENSES

Our research and development costs are expensed as incurred. We incurred research and development expenses during the three and nine month periods ended December 31, 2021 and 2020, which are included in various operating expense line items in the accompanying condensed consolidated statements of operations. Our research and development expenses in those periods were as follows:

	December 31,		December 31,	
	2021		2020	
Three months ended	\$	354,571	\$	461,176
Nine months ended	\$	1,403,891	\$	1,367,333

5. EQUITY TRANSACTIONS IN THE NINE MONTHS ENDED DECEMBER 31, 2021

Common Stock Sales Agreement with H.C. Wainwright & Co., LLC

On March 22, 2021, we entered into an At the Market Offering Agreement, or the Offering Agreement, with H.C. Wainwright & Co., LLC, or Wainwright, as sales agent, pursuant to which we could offer and sell shares of our common stock, from time to time as set forth in the Offering Agreement.

The offering was registered under the Securities Act of 1933, as amended, or Securities Act, pursuant to our shelf registration statement on Form S-3 (Registration Statement No. 333-237269), as previously filed with the SEC and declared effective on March 30, 2020. We filed a prospectus supplement with the SEC, dated March 22, 2021, in connection with the offer and sale of the shares of common stock, pursuant to which we could offer and sell shares of common stock having an aggregate offering price of up to \$5,080,000 from time to time.

Subject to the terms and conditions set forth in the Offering Agreement, Wainwright agreed to use its commercially reasonable efforts consistent with its normal trading and sales practices to sell the shares under the Offering Agreement from time to time, based upon our instructions. We provided Wainwright with customary indemnification rights under the Offering Agreement, and Wainwright was entitled to a commission at a fixed rate equal to three percent of the gross proceeds per share sold. In addition, we agreed to reimburse Wainwright for certain specified expenses in connection with entering into the Offering Agreement. The Offering Agreement provided that it would terminate upon the written termination by either party as permitted thereunder.

Sales of the shares, under the Offering Agreement are made in transactions that are deemed to be “at the market offerings” as defined in Rule 415 under the Securities Act, including sales made by means of ordinary brokers’ transactions, including on the Nasdaq Capital Market, at market prices or as otherwise agreed with Wainwright. The Offering Agreement provided that we have no obligation under the Offering Agreement to sell any of the shares, and, at any time, we could suspend offers under the Offering Agreement or terminate the agreement.

In the nine months ended December 31, 2021, we raised aggregate net proceeds under the Offering Agreement described above of \$4,947,785, net of \$126,922 in commissions to Wainwright and \$2,154 in other offering expense, through the sale of 626,000 shares of our common stock at an average price of \$7.90 per share of net proceeds. No further sales can be made under the Offering Agreement.

Registered Direct Financing

In the nine months ended December 31, 2021, we sold an aggregate of 1,380,555 shares of our common stock at a purchase price per share of \$9.00, for aggregate net proceeds to us of \$11,659,044, after deducting fees payable to Maxim Group LLC, the placement agent, and other offering expenses. These shares were sold through a securities purchase agreement with certain institutional investors. The shares were issued pursuant to an effective shelf registration statement on Form S-3, which was originally filed with the SEC on March 19, 2020, and was declared effective on March 30, 2020 (File No. 333-237269) and a prospectus supplement thereunder.

11

Warrant Exercises

In the nine months ended December 31, 2021, pursuant to the exercise of outstanding warrants to purchase 531,167 shares of our common stock, we received proceeds in the amount of \$820,938 from institutional investors.

Also in the nine months ended December 31, 2021, pursuant to the exercise of 874,664 outstanding warrants on a cashless basis, we issued 675,554 shares of our common stock. The difference of 199,110 shares of common stock issuable pursuant to the warrants were cancelled.

Stock Option Exercises

In the nine months ended December 31, 2021, former employees paid us an aggregate of \$8,325 for the exercise of outstanding options to purchase 11,562 shares of our common stock.

Restricted Stock Unit Grants

In 2012, as amended through October 30, 2020, our Board of Directors established the Non-Employee Directors Compensation Program, to provide for cash and equity compensation for persons serving as non-employee directors of the Company. Under this program, each new director receives either stock options or a grant of restricted stock units, or RSUs, as well as an annual grant of RSUs at the beginning of each fiscal year. The RSUs are subject to vesting and represent the right to be issued on a future date shares of our common stock upon vesting.

On April 1, 2021, pursuant to the terms of the Company’s 2012 Non-Employee Directors Compensation Program, as amended, or the Directors Plan, the Compensation Committee of the Board granted RSUs under the Company’s 2020 Equity Incentive Plan, or the 2020 Plan, to each non-employee director of the Company. The Director’s Plan

provides for a grant of \$50,000 worth of RSUs at the beginning of each fiscal year, priced at the average for the closing prices for the five days preceding and including the date of grant, or \$2.06 per share as of April 1, 2021. Each eligible director was granted an RSU in the amount of 24,295 shares under the 2020 Plan. The RSU's are subject to vesting in four equal quarterly installments on June 30, September 30, December 31, 2021, and March 31, 2022, subject to the recipient's continued service with the Company on each such vesting date.

In June 2021, 18,221 vested RSUs held by our non-employee directors were exchanged into the same number of shares of our common stock. All three non-employee directors elected to return 40% of their vested RSUs in exchange for cash, in order to pay their withholding taxes on the share issuances, resulting in 7,289 of the vested RSUs being cancelled in exchange for \$35,786 in aggregate cash proceeds to those independent directors.

In September 2021, 18,221 vested RSUs held by our non-employee directors were exchanged into the same number of shares of our common stock. All three non-employee directors elected to return 40% of their vested RSUs in exchange for cash, in order to pay their withholding taxes on the share issuances, resulting in 7,289 of the vested RSUs being cancelled in exchange for \$28,134 in aggregate cash proceeds to those independent directors.

In December 2021, 18,221 vested RSUs held by our non-employee directors were exchanged into the same number of shares of our common stock. All three non-employee directors elected to return 40% of their vested RSUs in exchange for cash, in order to pay their withholding taxes on the share issuances, resulting in 7,289 of the vested RSUs being cancelled in exchange for \$13,557 in aggregate cash proceeds to those independent directors.

RSUs outstanding that have vested as of, and are expected to vest subsequent to, December 31, 2021 are as follows:

	Number of RSUs
Vested	–
Expected to vest	18,221
Total	<u>18,221</u>

6. RELATED PARTY TRANSACTIONS

During the three months ended December 31, 2021, we accrued unpaid fees of \$2,000 owed to our non-employee directors as of December 31, 2021. We also paid the relocation expenses, including a gross up for the expected income tax impact, of \$200,041 in December 2021 for two senior executives that relocated to our headquarters as part of their employment arrangement. Amounts due to related parties were comprised of the following items:

	December 31, 2021	March 31, 2021
Accrued Board fees	\$ 52,000	\$ 52,000
Accrued vacation to all employees	78,375	66,520
Total due to related parties	<u>\$ 130,375</u>	<u>\$ 118,520</u>

7. OTHER CURRENT LIABILITIES

Other current liabilities were comprised of the following items:

	December 31, 2021	March 31, 2021
Accrued separation expenses for former executive (see Note 12)	\$ –	\$ 284,270
Accrued professional fees	421,956	477,366
Total other current liabilities	<u>\$ 421,956</u>	<u>\$ 761,636</u>

8. STOCK COMPENSATION

The following tables summarize share-based compensation expenses relating to RSUs and stock options and the effect on basic and diluted loss per common share during the three and nine month periods ended December 31, 2021 and 2020:

	Three Months Ended December 31, 2021	Three Months Ended December 31, 2020	Nine Months Ended December 31, 2021	Nine Months Ended December 31, 2020
Vesting of stock options and restricted stock units	\$ 201,019	\$ 377,958	\$ 522,234	\$ 629,207
Total stock-based compensation expense	<u>\$ 201,019</u>	<u>\$ 377,958</u>	<u>\$ 522,234</u>	<u>\$ 629,207</u>
Weighted average number of common shares outstanding – basic and diluted	<u>15,397,418</u>	<u>12,093,361</u>	<u>14,543,787</u>	<u>11,265,725</u>
Basic and diluted loss per common share attributable to stock-based compensation expense	<u>\$ (0.01)</u>	<u>\$ (0.03)</u>	<u>\$ (0.04)</u>	<u>\$ (0.06)</u>

All of the stock-based compensation expense recorded during the nine months ended December 31, 2021 and 2020, an aggregate of \$22,234 and \$629,207, respectively, is included in payroll and related expense in the accompanying condensed consolidated statements of operations. Stock-based compensation expense recorded during the nine months ended December 31, 2021 and 2020 represented an impact on basic and diluted loss per common share of \$(0.04) and \$(0.06), respectively.

We review share-based compensation on a quarterly basis for changes to the estimate of expected award forfeitures based on actual forfeiture experience. The cumulative effect of adjusting the forfeiture rate for all expense amortization is recognized in the period the forfeiture estimate is changed. The effect of forfeiture adjustments for the nine months ended December 31, 2021 was insignificant.

Stock Option Activity

During the nine months ended December 31, 2021, we issued a stock option grant to our Chief Executive Officer, or CEO, for the purchase of 266,888 shares of our common stock under our 2020 Plan. The purchase price for the shares subject to the option is \$5.17 per share, the fair market value of the common stock on the date of the grant. The shares subject to the option are subject to vesting over four years, commencing on the date of grant, or Vesting Commencement Date, with twenty-five percent (25%) of the shares subject to the option vesting on the first anniversary of the Vesting Commencement Date and the remaining shares vesting in equal monthly installments over the following thirty-six (36) months, in each case subject to Dr. Fisher's Continuous Service (as defined in the 2020 Plan) through each vesting date.

From February 2020 through May 2020, our compensation committee granted 521,476 stock options that were contingent upon stockholder approval of the 2020 Plan at the Aethlon 2020 Annual Meeting of Stockholders. Upon approval of the 2020 Plan at that meeting, these option grants were considered effective and no longer contingent as of that date.

Under the 2020 Plan, up to 1,842,556 shares of common stock are authorized for issuance, pursuant to the grant of stock options, RSUs or other forms of stock-based compensation.

14

Stock options outstanding that have vested as of December 31, 2021 and stock options that are expected to vest subsequent to December 31, 2021 are as follows:

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term in Years
Vested	166,717	\$ 2.92	8.43
Expected to vest	824,931	\$ 2.93	8.97
Total	<u>991,648</u>		

A summary of stock option activity during the nine months ended December 31, 2021 is presented below:

	Amount	Range of Exercise Price	Weighted Average Exercise Price
Stock options outstanding at March 31, 2021	844,089	\$ 1.28 - 142.50	\$ 3.07
Exercised	(11,562)	\$ 2.45	\$ 2.45
Granted	266,888	\$ 5.17	\$ 5.17
Cancelled/Expired	(107,767)	\$ 2.45 - 142.50	\$ 9.66
Stock options outstanding at December 31, 2021	<u>991,648</u>	\$ 1.28 - 142.50	\$ 2.93
Stock options exercisable at December 31, 2021	<u>166,717</u>	\$ 1.28 - 142.50	\$ 2.92

On December 31, 2021, our outstanding stock options had no intrinsic value since the closing share price on that date of \$.86 per share was below the weighted average exercise price of our outstanding stock options.

At December 31, 2021, there was approximately \$3,320,000 of unrecognized compensation cost related to share-based payments, which is expected to be recognized over a weighted average period of 4.1 years.

15

9. WARRANTS

During the nine months ended December 31, 2021 and 2020, we did not issue any warrants.

A summary of warrant activity during the nine months ended December 31, 2021 is presented below:

	Amount	Range of Exercise Price	Weighted Average Exercise Price
Warrants outstanding at March 31, 2021	1,991,973	\$ 1.50 - 99.00	\$ 5.23
Exercised	(1,206,721)	\$ 1.50 - 2.50	\$ 2.21
Cancelled/Expired	(207,362)	\$ 2.50 - 99.00	\$ 5.78
Warrants outstanding at December 31, 2021	<u>577,890</u>	\$ 1.50 - 65.63	\$ 11.32
Warrants exercisable at December 31, 2021	<u>577,890</u>	\$ 1.50 - 65.63	\$ 11.32

10. GOVERNMENT CONTRACTS AND RELATED REVENUE RECOGNITION

We entered into the following contract with the National Cancer Institute, or NCI, part of the National Institutes of Health, or NIH, over the past two years:

Phase 2 Melanoma Cancer Contract

On September 12, 2019, the NCI awarded to us an SBIR Phase II Award Contract, for NIH/NCI Topic 359, entitled “A Device Prototype for Isolation of Melanoma Exosomes for Diagnostics and Treatment Monitoring”, or the Award Contract. The Award Contract amount is \$ 1,860,561 and, as amended, runs for the period from September 16, 2019 through September 15, 2022.

The work to be performed pursuant to this Award Contract is focused on melanoma exosomes. This work follows from our completion of a Phase I contract for the Topic 359 solicitation that ran from September 2017 through June 2018, as described below. Following on the Phase I work, the deliverables in the Phase II program involve the design and testing of a pre-commercial prototype of a more advanced version of the exosome isolation platform.

We recorded \$229,698 of government contract revenue on the Phase 2 Melanoma Cancer Contract in the nine months ended December 31, 2021. That revenue related to work performed in the three months ended March 31, 2021 and June 30, 2021 that had previously been recorded as deferred revenue as a result of falling short on certain milestones. We then achieved those March period milestones in the June quarter and the June period milestones in the September quarter and therefore recorded the previously deferred revenue as government contract revenue in the quarter ended September 30, 2021. We recorded the invoices related to the September 30, 2021 and December 31, 2021 periods as deferred revenue, since we fell short of certain milestones related to those periods.

16

During the period ended December 31, 2020, we completed all of the milestones relevant to that time period. As a result, we recorded \$36,427 of government contract revenue on the Phase 2 Melanoma Cancer Contract in the nine months ended December 31, 2020. Of the total revenue recognized during the nine months ended December 31, 2020 relating to this grant, a total of \$117,849 was invoiced to the NCI during the three months ended December 31, 2020 and we recorded \$18,578 which had previously been recognized as deferred revenue.

Subaward with University of Pittsburgh

In December 2020, we entered into a cost reimbursable subaward arrangement with the University of Pittsburgh in connection with an NIH contract entitled “Depleting Exosomes to Improve Responses to Immune Therapy in HNNCC.” Our share of the award is \$256,750. We recorded \$51,351 of revenue related to this subaward in the nine months ended December 31, 2021.

11. SEGMENTS

We operate our businesses principally through two reportable segments: Aethlon, which represents our therapeutic business activities, and ESI, which represents our diagnostic subsidiary. Our reportable segments have been determined based on the nature of the potential products being developed. We record discrete financial information for ESI and our chief operating decision maker reviews ESI’s operating results in order to make decisions about resources to be allocated to the ESI segment and to assess its performance.

Aethlon’s revenue is generated primarily from government contracts to date and ESI does not have any revenues. We have not included any allocation of corporate overhead to the ESI segment.

17

The following tables set forth certain information regarding our segments:

	Nine Months Ended December 31,	
	2021	2020
Revenues:		
Aethlon	\$ 281,049	\$ 624,871
ESI	-	-
Total Revenues	<u>\$ 281,049</u>	<u>\$ 624,871</u>
Operating Losses:		
Aethlon	\$ (6,614,318)	\$ (5,610,994)
ESI	(20,869)	(15,931)
Total Operating Loss	<u>\$ (6,635,187)</u>	<u>\$ (5,626,925)</u>
Net Losses:		
Aethlon	\$ (6,614,318)	\$ (5,610,994)
ESI	(20,869)	(15,931)
Net Loss Before Non-Controlling Interests	<u>\$ (6,635,187)</u>	<u>\$ (5,626,925)</u>
Depreciation and Amortization:		
Aethlon	\$ 98,363	\$ 28,775
ESI	-	-
Total Depreciation and Amortization	<u>\$ 98,363</u>	<u>\$ 28,775</u>
Capital Expenditures:		
Aethlon	\$ 136,795	\$ 54,630
ESI	-	-
Capital Expenditures	<u>\$ 136,795</u>	<u>\$ 54,630</u>
	<u>December 31, 2021</u>	<u>December 31, 2020</u>

Cash:		
Aethlon	\$ 20,394,339	\$ 12,131,396
ESI	197	197
Total Cash	<u>\$ 20,394,536</u>	<u>\$ 12,131,593</u>
Total Assets:		
Aethlon	\$ 21,916,069	\$ 12,669,552
ESI	197	197
Total Assets	<u>\$ 21,916,266</u>	<u>\$ 12,669,749</u>

12. COMMITMENTS AND CONTINGENCIES

CONTRACTUAL OBLIGATIONS AND COMMITMENTS

On September 29, 2021, we entered into an agreement with PPD, Inc., a leading global contract research organization, for PPD to oversee our clinical studies investigating the Hemopurifier (the PPD Agreement). Pursuant to the PPD Agreement, PPD agreed to manage our ongoing study of the Hemopurifier for patients who are critically ill with COVID-19 (NCT04595903), with the option for the parties to agree to include additional studies under the PPD Agreement. The agreement has a five year term, but may be extended by mutual agreement. The PPD Agreement also may be terminated by Aethlon without cause upon 30 days' prior written notice and may be terminated by either party following notice for breach or insolvency of the other party.

SEPARATION AGREEMENT

On October 30, 2020, we entered into a Separation Agreement with Timothy Rodell, M.D., our former Chief Executive Officer, or the Separation Agreement. Under the Separation Agreement, we agreed to pay Dr. Rodell a total cash amount of \$444,729 and agreed to cover his medical insurance costs over a twelve-month period that began on November 1, 2020, all in accordance with the terms of his employment agreement with the Company. All of those contractually agreed payments have been completed as of December 31, 2021 (see Note 7).

LEASE COMMITMENTS

Previous Office and Lab Leases

In September 2021, our lease of approximately 2,600 square feet of our previous executive office space at 9635 Granite Ridge Drive, Suite 100, San Diego California 92123 expired.

Through December 31, 2021, we rented approximately 1,700 square feet of laboratory space at 11585 Sorrento Valley Road, Suite 109, San Diego, California 92121, at the rate of \$6,148 per month on a one-year lease that originally was to expire on November 30, 2020. In December 2020, we entered into a short-term lease extension running from December 1, 2020 through the completion date of our construction of our new laboratory space which is adjacent to our current laboratory.

New Office and Lab Leases

In December 2020, we entered into an agreement to lease approximately 2,823 square feet of office space and 1,807 square feet of laboratory space. The agreement carries a term of 63 months and we took possession of the office space effective October 1, 2021. We took possession of the lab space effective January 1, 2022 (see Note 13).

On October 1, 2021, we recorded a \$343,633 right-of-use lease asset and associated lease liability related to the office space component of the lease based on the present value of lease payments over the expected lease term of 63 months, discounted using our estimated incremental borrowing rate of 4.25%. The current monthly base rent under the office component of the lease is \$6,121. As of our December 31, 2021 consolidated balance sheet, we have a right-of-use lease asset of \$28,869.

During the three months ended March 31, 2022, we will record a \$400,797 right-of-use lease asset and associated lease liability related to the lab space component of the lease based on the present value of lease payments over the expected lease term of 60 months, discounted using our estimated incremental borrowing rate of 4.25%. The initial monthly base rent under the lab component of the lease is \$7,456.

In addition, the new lease agreement of the new office and lab required us to post a standby letter of credit in favor of the landlord in the amount of \$6,726 in lieu of a security deposit. We arranged for our bank to issue the standby letter of credit in the fiscal year ended March 31, 2021 and transferred a like amount to a restricted certificate of deposit which secured the bank's risk in issuing that letter of credit. We have classified that restricted certificate of deposit on our balance sheet as restricted cash.

Manufacturing Space Lease

In October 2021, we entered into another lease for an initial period of 58 months for (i) approximately 22,260 square feet of space located at 11588 Sorrento Valley Road, San Diego, California 92121 (the "Building"), and (ii) 2,655 square feet of space located in the Building and commonly known as Suite 18 to house our manufacturing operations. That manufacturing space is located at 11588 Sorrento Valley Road, San Diego, California 92121 and it is near our new lab and office locations. We anticipate that the landlord will complete construction on this new space in the second or third quarter of 2022 and we will take occupancy at that time. The initial base rent for the manufacturing space will be \$12,080 per month.

Based on the assumptions that we used to calculate the right-of-use lease asset for the new office and lab spaces, we estimate that we will record a right-of-use lease asset of \$614,240 and associated lease liability for the manufacturing space lease when we take possession of that space.

The lease for the manufacturing space also required us to post a standby letter of credit in favor of the landlord in the amount of \$0,780 in lieu of a security deposit. We arranged for our bank to issue the standby letter of credit in October 2021 and transferred a like amount to a restricted certificate of deposit which secured the bank's risk in issuing that letter of credit. We have classified that restricted certificate of deposit on our balance sheet as restricted cash.

Mobile Clean Room

In addition, we rent a mobile clean room on a short term, month-to-month basis, where we will house our manufacturing operations until our permanent manufacturing space is completed. The mobile clean room is located on leased land near our office and lab and we pay \$2,000 per month for the right to locate it there. We paid approximately \$119,000 in rent expense to lease the mobile clean room located on this space during the nine months ended December 31, 2021.

Overall, our rent expense, which is included in general and administrative expenses, approximated \$288,000 and \$144,000 for the nine month periods ended December 31, 2021 and 2020, respectively.

LEGAL MATTERS

From time to time, claims are made against us in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur, such as monetary damages, fines, penalties or injunctions prohibiting us from selling one or more products or engaging in other activities.

The occurrence of an unfavorable outcome in any specific period could have a material adverse effect on our results of operations for that period or future periods. We are not presently a party to any pending or threatened legal proceedings.

13. SUBSEQUENT EVENTS

Management has evaluated events subsequent to December 31, 2021 through the date that the accompanying condensed consolidated financial statements were filed with the SEC for transactions and other events which may require adjustment of and/or disclosure in such financial statements.

Lab Lease

In December 2020, we entered into an agreement to lease approximately 2,823 square feet of office space and 1,807 square feet of laboratory space. The agreement carries a term of 63 months and we took possession of the office space effective October 1, 2021. We took possession of the lab space effective January 1, 2022 (see Note 12).

During the three months ending March 31, 2022, we will record a \$400,797 right-of-use lease asset and associated lease liability related to the lab space component of the lease based on the present value of lease payments over the expected lease term of 60 months, discounted using our estimated incremental borrowing rate of 4.25%. The initial monthly base rent under the lab component of the lease is \$7,456.

2021 Target Bonus Awards

On February 10, 2022, the Compensation Committee of the Board (the "Committee") approved cash bonus awards to the Company's executive officers in accordance with the terms of their respective employment agreements with the Company after review of Company and individual performance for 2021 and review of data from the Company's independent compensation consultant. The Committee approved cash bonuses for the Company's Chief Executive Officer, Chief Medical Officer, Chief Operating Officer and Chief Financial Officer in the amount of \$215,000, \$160,000, \$136,000 and \$110,000, respectively. The awards were based on a percentage of their respective 2021 annual base salaries.

2022 Annual Base Salaries and Target Bonus Levels

On February 10, 2022, after review of data provided by the Company's independent compensation consultant, the Committee approved annual base salaries for its executive officers for 2022, as follows, Chief Executive Officer \$460,000, Chief Medical Officer, \$400,000, Chief Operating Officer \$340,000, and Chief Financial Officer \$325,000, effective January 1, 2022. The Committee also approved target bonus levels for its executive officers for 2022 as follows, Chief Executive Officer, 50% bonus target, Chief Medical Officer, Chief Operating Officer and Chief Financial Officer each at 40% bonus target for 2022. The Committee targeted the 50th percentile for companies in its peer group when approving 2022 base salaries and target bonus levels.

Stock Option Grants

On February 10, 2022, after review of data provided by the Company's independent compensation consultant, the Committee awarded stock option grants to each of its executive officers. Each executive officer was granted an option to purchase shares of the Company's common stock under the Company's 2020 Equity Incentive Plan (the "Plan"), at an exercise price equal to the fair market value on the date of grant, or \$[1.41] per share. The Committee awarded the grants as follows: the Chief Executive Officer was granted an option to purchase 192,600 shares of common stock, and the Chief Medical Officer, Chief Operating Officer and Chief Financial Officer each were granted an option to purchase 100,200 shares of common stock. The options are subject to vesting over four years at the rate of 25% at the end of the first year following the grant date, then monthly vesting over the following 36 months, subject to Continuous Service with the Company, as defined in the Plan.

Non-Employee Director Compensation Policy

On February 10, 2022, at the recommendation of the Company's independent compensation consultant, the Committee approved an amendment to the Company's Non-Employee Director Compensation Policy to increase the annual Board service retainer from \$35,000 to \$40,000, effective as of January 1, 2022.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion of our financial condition and results of operations should be read in conjunction with, and is qualified in its entirety by, the condensed consolidated financial statements and notes thereto included in Item 1 in this Quarterly Report on Form 10-Q. This item contains forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those indicated in such forward-looking statements.

FORWARD LOOKING STATEMENTS

All statements, other than statements of historical fact, included in this Form 10-Q are, or may be deemed to be, "forward-looking statements" within the meaning of Section 27A of the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act. Such forward-looking statements involve assumptions, known and unknown risks, uncertainties and other factors which may cause our actual results, performance, or achievements to be materially different from any future results,

performance, or achievements expressed or implied by such forward-looking statements contained in this Form 10-Q. Such potential risks and uncertainties include, without limitation, successful completion of our clinical trials, our ability to raise additional capital, our ability to maintain our Nasdaq listing, FDA approval of our products candidates, our ability to comply with changing government regulations, patent protection of our proprietary technology, product liability exposure, uncertainty of market acceptance, competition, technological change, and other risk factors detailed herein and in other of our filings with the Securities and Exchange Commission, or the Commission. The forward-looking statements are made as of the date of this Form 10-Q, and we assume no obligation to update the forward-looking statements, or to update the reasons actual results could differ from those projected in such forward-looking statements.

Overview

We are a medical technology company focused on developing products to diagnose and treat life and organ threatening diseases. The Aethlon Hemopurifier®, or Hemopurifier, is a clinical-stage immunotherapeutic device designed to combat cancer and life-threatening viral infections. In cancer, the Hemopurifier is designed to deplete the presence of circulating tumor-derived exosomes that promote immune suppression, seed the spread of metastasis and inhibit the benefit of leading cancer therapies. The FDA has designated the Hemopurifier as a “Breakthrough Device” for two independent indications:

- the treatment of individuals with advanced or metastatic cancer who are either unresponsive to or intolerant of standard of care therapy, and with cancer types in which exosomes have been shown to participate in the development or severity of the disease; and
- the treatment of life-threatening viruses that are not addressed with approved therapies.

We believe the Hemopurifier can be a substantial advance in the treatment of patients with advanced and metastatic cancer through the clearance of exosomes that promote the growth and spread of tumors through multiple mechanisms. We are currently conducting a clinical trial in patients with advanced and metastatic head and neck cancer. We are initially focused on the treatment of solid tumors, including head and neck cancer, gastrointestinal cancers and other cancers. As we advance our clinical trials, we are in close contact with our clinical sites to navigate and assess the impact of the global COVID-19 pandemic on our clinical trials and current timelines.

On October 4, 2019, the FDA approved our Investigational Device Exemption, or IDE, application to initiate an Early Feasibility Study, or EFS, of the Hemopurifier in patients with head and neck cancer in combination with standard of care pembrolizumab (Keytruda). The primary endpoint for the EFS, which is designed to enroll 10-12 subjects at a single center, is safety, with secondary endpoints including measures of exosome clearance and characterization, as well as response and survival rates. This study, which will be conducted at the UPMC Hillman Cancer Center in Pittsburgh, PA, has treated two patients and is in the process of recruiting additional patients. We are considering adding one or more additional sites to this trial to accelerate patient recruitment and we are also considering starting additional trials in other forms of cancer.

22

We also believe the Hemopurifier can be part of the broad-spectrum treatment of life-threatening highly glycosylated, or carbohydrate coated, viruses that are not addressed with an already approved treatment. In small-scale or early feasibility human studies, the Hemopurifier has been used in the past to treat individuals infected with HIV, hepatitis-C, and Ebola.

Additionally, *in-vitro*, the Hemopurifier has been demonstrated to capture Zika virus, Lassa virus, MERS-CoV, cytomegalovirus, Epstein-Barr virus, Herpes simplex virus, Chikungunya virus, Dengue virus, West Nile virus, smallpox-related viruses, H1N1 swine flu virus, H5N1 bird flu virus, and the reconstructed Spanish flu virus of 1918. In several cases, these validations were conducted in collaboration with leading government or non-government research institutes.

On June 17, 2020, the FDA approved a supplement to our open IDE for the Hemopurifier in viral disease to allow for the testing of the Hemopurifier in patients with SARS-CoV-2/COVID-19 in a New Feasibility Study. That study is designed to enroll up to 40 subjects at up to 20 centers in the U.S. Subjects will have established laboratory diagnosis of COVID-19, be admitted to an intensive care unit, or ICU, and will have acute lung injury and/or severe or life-threatening disease, among other criteria. Endpoints for this study, in addition to safety, will include reduction in circulating virus as well as clinical outcomes (NCT # 04595903). Under Single Patient Emergency Use regulations, the Company has also treated two patients with COVID-19 with the Hemopurifier.

In September 2021, we entered into an agreement with PPD, Inc., or PPD, a leading global contract research organization, or CRO, to oversee our U.S. clinical studies investigating the Hemopurifier for critically ill COVID-19 patients. We now have three hospitals, Hoag Newport Beach, Hoag Irvine, and Loma Linda Medical Center, fully activated for patient enrollment and they are actively screening patients for the trial. Together with PPD, we are currently advancing site readiness for LSU Shreveport, Valley Baptist Medical Center in Texas, Loma Linda Medical Center, Hoag Hospitals in Southern California, University of California Davis, University of Miami Medical Center, and Thomas Jefferson Medical Center. We are in discussions to bring on board other key U.S. medical centers.

We also obtained ethics review board approval and entered into a clinical trial agreement with Medanta Medicity Hospital, a multi-specialty hospital in Delhi NCR, India, for a COVID-19 clinical trial at that location. We have completed all site initiation activities at Medanta Medicity Hospital and this site is now open for enrollment and is actively screening patients.

We are also the majority owner of ESI, a company formed to focus on the discovery of exosomal biomarkers to diagnose and monitor life-threatening diseases. We consolidate ESI's activities in our consolidated financial statements.

We are also the majority owner of ESI, a company formed to focus on the discovery of exosomal biomarkers to diagnose and monitor life-threatening diseases. We consolidate ESI's activities in our consolidated financial statements.

Successful outcomes of human trials will also be required by the regulatory agencies of certain foreign countries where we plan to sell the Hemopurifier. Some of our patents may expire before FDA approval or approval in a foreign country, if any, is obtained. However, we believe that certain patent applications and/or other patents issued more recently will help protect the proprietary nature of the Hemopurifier treatment technology.

We were formed on March 10, 1999. Our executive offices are located at 11555 Sorrento Valley Road, Suite 203, San Diego, California 92121. Our telephone number is (619) 941-0360. Our website address is www.aethlonmedical.com.

Our common stock is listed on the Nasdaq Capital Market under the symbol “AEMD.”

23

In March 2020, the World Health Organization declared COVID-19 a pandemic. The COVID-19 pandemic has negatively impacted the global economy, disrupted global supply chains and created significant volatility and disruption of financial markets.

We are monitoring closely the impact of the COVID-19 global pandemic on our business and have taken steps designed to protect the health and safety of our employees while continuing our operations, including clinical trials. Given the level of uncertainty regarding the duration and impact of the COVID-19 pandemic on capital markets and the U.S. economy, we are unable to assess the impact of the worldwide spread of SARS-CoV-2 and the resulting COVID-19 pandemic on our future access to capital. Further, while we have not experienced significant disruptions to our manufacturing supply chain, business, results of operations, financial condition, clinical trials, or preclinical research to date, we are unable to assess the potential impact this pandemic could have on our manufacturing supply chain, business, results of operations, financial condition, clinical trials, or preclinical research in the future.

As we continue to actively advance our clinical trials, we remain in close contact with our clinical sites and are assessing the impact of COVID-19 on our trials, expected timelines and costs on an ongoing basis. We will assess any potential delays in our ability to timely ship clinical trial materials, including internationally, due to transportation interruptions. The extent of the impact of COVID-19 on our operational and financial performance will depend on certain developments, including the duration and spread of the outbreak, impact on our clinical trials, employees and vendors, all of which are uncertain and cannot be predicted. Given these uncertainties, we cannot reasonably estimate the related impact to our business, operating results and financial condition, if any.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Exchange Act, and must file reports, proxy statements and other information with the Commission. The Commission maintains a web site (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding registrants, like us, which file electronically with the Commission. Our headquarters are located at 11555 Sorrento Valley Road, Suite 203, San Diego, CA 92121. Our phone number at that address is (619) 941-0360. Our website is <http://www.aethlonmedical.com>.

RESULTS OF OPERATIONS

THREE MONTHS ENDED DECEMBER 31, 2021 COMPARED TO THE THREE MONTHS ENDED DECEMBER 31, 2020

Government Contract Revenues:

We recorded \$17,117 in government contract revenue in the three months ended December 31, 2021 and we recorded \$624,871 in government contract revenue in the three months ended December 31, 2020. This revenue resulted from work performed under our government contracts with NIH as follows:

	Three Months Ended 12/31/21	Three Months Ended 12/31/20	Change in Dollars
Phase 2 Melanoma Cancer Contract	\$ -	\$ 436,427	\$ (436,427)
Breast Cancer Grant	-	188,444	(188,444)
Subaward with University of Pittsburgh	17,117	-	17,117
Total Government Contract and Grant Revenue	<u>\$ 17,117</u>	<u>\$ 624,871</u>	<u>\$ (607,754)</u>

We have recognized revenue under the following contracts/grants:

Phase 2 Melanoma Cancer Contract

On September 12, 2019, the NCI awarded to us an SBIR Phase II Award Contract, for NIH/NCI Topic 359, entitled “A Device Prototype for Isolation of Melanoma Exosomes for Diagnostics and Treatment Monitoring”, or the Award Contract. The Award Contract amount is \$1,860,561 and, as amended, runs for the period from September 16, 2019 through September 15, 2022.

The work to be performed pursuant to this Award Contract is focused on melanoma exosomes. This work follows from our completion of a Phase I contract for the Topic 359 solicitation that ran from September 2017 through June 2018, as described below. Following on the Phase I work, the deliverables in the Phase II program involve the design and testing of a pre-commercial prototype of a more advanced version of the exosome isolation platform.

During the three months ended December 31, 2021, we did not complete the milestones relevant to that time period. As a result, we did not record any government contract revenue on the Phase 2 Melanoma Cancer Contract in the three months ended December 31, 2021. We recorded the invoice related to the December 31, 2021 period as deferred revenue.

During the three months ended December 31, 2020, we completed all of the milestones relevant to that time period. As a result, we recorded \$436,427 of government contract revenue on the Phase 2 Melanoma Cancer Contract in the three months ended December 31, 2020. Of the total revenue recognized during the three months ended December 31, 2020 relating to this grant, a total of \$117,849 was invoiced to the NCI during the three months ended December 31, 2020 and we recorded \$318,578 which had previously been recognized as deferred revenue.

Breast Cancer Grant

This NCI Small Business Innovation Research, or SBIR Phase I grant, titled “The Hemopurifier Device for Targeted Removal of Breast Cancer Exosomes from the Blood Circulation,” or the Breast Cancer Grant, was originally for a period that ran from September 14, 2018 through August 31, 2019. In August 2019, we applied for and received a no cost, twelve-month extension on this grant through August 31, 2020. The total amount of the firm grant was \$298,444. The grant called for two subcontractors to work with us. Those subcontractors were University of Pittsburgh and Massachusetts General Hospital. In the three months ended December 31, 2020, we completed and submitted the final reports applicable to this NCI grant (number 1R43CA232977-01). As of December 31, 2020, we have received all of the funds allocated to the Breast Cancer Grant.

During the three months ended December 31, 2020, we recorded the remaining \$188,444 of revenue related to the Breast Cancer Grant as we achieved two of the three milestones related to the Breast Cancer Grant and concluded in our final report that our work under the grant provided nonclinical support that the Hemopurifier has the capacity to clear exosomes from breast cancer patients. That amount previously was recorded as deferred revenue.

Subaward with University of Pittsburgh

In December 2020, we entered into a cost reimbursable subaward arrangement with the University of Pittsburgh in connection with an NIH contract entitled “Depleting Exosomes to Improve Responses to Immune Therapy in HNNCC.” Our share of the award is \$256,750. We recorded \$17,117 of revenue related to this subaward in the three months ended December 31, 2021.

Operating Expenses

Consolidated operating expenses for the three months ended December 31, 2021 were \$2,545,063, compared to \$3,069,261 for the three months ended December 31, 2020. This decrease of \$524,198, or 17.1%, in the 2021 period was due to decreases in payroll and related expenses of \$524,150 and in professional fees of \$191,575, which were partially offset by an increase in general and administrative expenses of \$191,527.

The \$524,150 decrease in payroll and related expenses was primarily due to the combination of a \$444,729 accrual in the December 2020 period related to the separation agreement with our former CEO and \$249,950 in bonuses paid in the December 2020 period, with no comparable expenses in the December 2021 period. Additionally, stock-based compensation expense decreased by \$176,939 in the December 2021 period, largely due to the separation agreement with our former CEO. Partially offsetting those decreases were \$179,853 in relocation-related compensation to two senior executives that relocated to San Diego, California as a condition of their employment, and increases in cash-based compensation of \$89,280 and \$89,236 in our general and administrative payroll and in our research and development payroll, respectively, due to headcount increases.

The \$191,575 decrease in our professional fees was primarily due to a \$79,706 decrease in our scientific consulting expenses, a \$51,092 decrease in our legal fees, a \$37,212 decrease in recruiting fees, a \$19,069 decrease in website services, and a \$17,292 decrease in our directors' compensation, which were partially offset by a \$17,111 increase in our accounting fees.

The \$191,527 increase in general and administrative expenses was primarily due to a \$182,844 increase in our clinical trial expenses.

Net Loss

As a result of the changes in revenues and expenses noted above, our net loss increased to approximately \$2,528,000 in the three months ended December 31, 2021, from approximately \$2,444,000 in the three months ended December 31, 2020.

Basic and diluted loss attributable to common stockholders were (\$0.16) for the three months ended December 31, 2021, compared to (\$0.20) for the three month period ended December 31, 2020.

NINE MONTHS ENDED DECEMBER 31, 2021 COMPARED TO THE NINE MONTHS ENDED DECEMBER 31, 2020

Government Contract Revenues:

We recorded \$281,049 in government contract revenue in the nine months ended December 31, 2021 and we recorded \$624,871 in government contract revenue in the nine months ended December 31, 2020. This revenue resulted from work performed under our government contracts with NIH as follows:

	Nine Months Ended 12/31/21	Nine Months Ended 12/31/20	Change in Dollars
Phase 2 Melanoma Cancer Contract	\$ 229,698	\$ 436,427	\$ (206,729)
Breast Cancer Grant	–	188,444	(188,444)
Subaward with University of Pittsburgh	51,351	–	51,351
Total Government Contract and Grant Revenue	<u>\$ 281,049</u>	<u>\$ 624,871</u>	<u>\$ (343,822)</u>

We have recognized revenue under the following contracts/grants:

Phase 2 Melanoma Cancer Contract

On September 12, 2019, the NCI awarded to us an SBIR Phase II Award Contract, for NIH/NCI Topic 359, entitled "A Device Prototype for Isolation of Melanoma Exosomes for Diagnostics and Treatment Monitoring", or the Award Contract. The Award Contract amount is \$1,860,561 and, as amended, runs for the period from September 16, 2019 through September 15, 2022.

The work to be performed pursuant to this Award Contract is focused on melanoma exosomes. This work follows from our completion of a Phase I contract for the Topic 359 solicitation that ran from September 2017 through June 2018, as described below. Following on the Phase I work, the deliverables in the Phase II program involve the design and testing of a pre-commercial prototype of a more advanced version of the exosome isolation platform.

We recorded \$229,698 of government contract revenue on the Phase 2 Melanoma Cancer Contract in the nine months ended December 31, 2021. That revenue related to work performed in the three months ended March 31, 2021 and June 30, 2021 that had previously been recorded as deferred revenue as a result of falling short on certain milestones. We then achieved those March period milestones in the June quarter and the June period milestones in the September quarter and therefore recorded the previously deferred revenue as government contract revenue in the quarter ended September 30, 2021. We recorded the invoices related to the September 30, 2021 and December 31, 2021 periods as deferred revenue, since we fell short of certain milestones related to those periods.

During the period ended December 31, 2020, we completed all of the milestones relevant to that time period. As a result, we recorded \$436,427 of government contract revenue on the Phase 2 Melanoma Cancer Contract in the nine months ended December 31, 2020. Of the total revenue recognized during the nine months ended December 31, 2020 relating to this grant, a total of \$117,849 was invoiced to the NCI during the three months ended December 31, 2020 and we recorded \$318,578 which had previously been recognized as deferred revenue.

Breast Cancer Grant

This NCI Small Business Innovation Research, or SBIR Phase I grant, titled "The Hemopurifier Device for Targeted Removal of Breast Cancer Exosomes from the Blood Circulation," or the Breast Cancer Grant, was originally for a period that ran from September 14, 2018 through August 31, 2019. In August 2019, we applied for and received a no cost, twelve-month extension on this grant through August 31, 2020. The total amount of the firm grant was \$298,444. The grant called for two subcontractors to work with us. Those subcontractors were University of Pittsburgh and Massachusetts General Hospital. In the three months ended December 31, 2020, we completed and submitted the

final reports applicable to this NCI grant (number 1R43CA232977-01). As of December 31, 2020, we have received all of the funds allocated to the Breast Cancer Grant.

During the nine months ended December 31, 2020, we recorded the remaining \$188,444 of revenue related to the Breast Cancer Grant as we achieved two of the three milestones related to the Breast Cancer Grant and concluded in our final report that our work under the grant provided nonclinical support that the Hemopurifier has the capacity to clear exosomes from breast cancer patients. That amount previously was recorded as deferred revenue.

Subaward with University of Pittsburgh

In December 2020, we entered into a cost reimbursable subaward arrangement with the University of Pittsburgh in connection with an NIH contract entitled “Depleting Exosomes to Improve Responses to Immune Therapy in HNNCC.” Our share of the award is \$256,750. We recorded \$51,351 of revenue related to this subaward in the nine months ended December 31, 2021.

27

Operating Expenses

Consolidated operating expenses for the nine months ended December 31, 2021 were \$6,916,236, compared to \$6,251,796 for the nine months ended December 31, 2020. This increase of \$664,440, or 10.6%, in the 2021 period was due to increases in payroll and related expenses of \$301,045, and in general and administrative expenses of \$542,721, which were partially offset by a decrease in professional fees of \$179,326.

The \$301,045 increase in payroll and related expenses in the 2021 period was primarily due to increases in cash-based compensation of \$245,702 and \$424,183 in our general and administrative payroll and in our research and development payroll, respectively, due to headcount increases, and \$198,347 in relocation-related compensation to two senior executives that relocated to San Diego, California as a condition of their employment. Those increases were partially offset by the combination of a \$444,729 accrual in the December 2020 period related to the separation agreement with our former CEO, with no comparable expense in the December 2021 period, and net decrease of \$34,950 in bonuses paid in the December 2021 period compared to the December 2020 period. Additionally, stock-based compensation expense decreased by \$106,973 in the December 2021 period, largely due to the separation agreement with our former CEO.

The \$542,721 increase in general and administrative expenses in the 2021 period was primarily due to a \$161,466 increase in our insurance expenses, a \$143,932 increase in our rent expense, a \$82,483 increase in our lab fees and small lab equipment expenses, a \$74,666 increase in our clinical trial expenses, a \$69,587 increase in our depreciation and amortization expenses and a \$15,976 increase in our utility costs.

The \$179,326 decrease in our professional fees in the 2021 period was primarily due to a \$163,988 decrease in our scientific consulting expenses and a \$69,417 decrease in directors’ fees, which were partially offset by a \$51,088 increase in our legal fees and a \$10,497 increase in our accounting expenses.

Net Loss

As a result of the changes in revenues and expenses noted above, our net loss increased to approximately \$6,635,000 in the nine months ended December 31, 2021, from approximately \$5,627,000 in the nine months ended December 31, 2020.

Basic and diluted loss attributable to common stockholders were (\$0.46) for the nine month period ended December 31, 2021 and (\$0.50) for the nine month period ended December 31, 2020.

LIQUIDITY AND CAPITAL RESOURCES

As of December 31, 2021, we had a cash balance of \$20,394,536 and working capital of \$20,140,532. This compares to a cash balance of \$9,861,575 and working capital of \$8,976,512 at March 31, 2021. We expect our existing cash as of December 31, 2021 to be sufficient to fund the Company’s operations for at least twelve months from the issuance date of these financial statements.

The primary sources of our increase in cash during the nine months ended December 31, 2021 resulted from our Common Stock Sales Agreement with Wainwright and our registered direct financing through Maxim Group LLC. The cash raised from those activities is noted below:

28

Common Stock Sales Agreement with H.C. Wainwright & Co., LLC

On March 22, 2021, we entered into the Offering Agreement, with Wainwright as sales agent, pursuant to which we could offer and sell shares of our common stock, from time to time as set forth in the Offering Agreement.

The offering has been registered under the Securities Act pursuant to our shelf registration statement on FormS-3 (Registration Statement No. 333-237269), as previously filed with the SEC and declared effective on March 30, 2020. We filed a prospectus supplement, dated March 22, 2021, with the SEC in connection with the offer and sale of the shares of common stock, pursuant to which we could offer and sell shares of common stock having an aggregate offering price of up to \$5,080,000 from time to time.

Subject to the terms and conditions set forth in the Offering Agreement, Wainwright agreed to use its commercially reasonable efforts consistent with its normal trading and sales practices to sell the shares under the Offering Agreement from time to time, based upon our instructions. We provided Wainwright with customary indemnification rights under the Offering Agreement, and Wainwright was entitled to a commission at a fixed rate equal to three percent of the gross proceeds per share sold. In addition, we agreed to reimburse Wainwright for certain specified expenses in connection with entering into the Offering Agreement. The Offering Agreement provided that it would terminate upon the written termination by either party as permitted thereunder.

Sales of the shares, under the Offering Agreement are made in transactions that are deemed to be “at the market offerings” as defined in Rule 415 under the Securities Act, including sales made by means of ordinary brokers’ transactions, including on the Nasdaq Capital Market, at market prices or as otherwise agreed with Wainwright. We have no obligation to sell any of the shares, and, at any time, we could suspend offers under the Offering Agreement or terminate the agreement.

In the nine months ended December 31, 2021, we raised aggregate net proceeds under the Offering Agreement described above of \$4,947,785, net of \$126,922 in commissions to Wainwright and \$2,154 in other offering expense, through the sale of 626,000 shares of our common stock at an average price of \$7.90 per share of net proceeds. No further sales may be made under the agreement.

Registered Direct Financing

In the nine months ended December 31, 2021, we sold an aggregate of 1,380,555 shares of our common stock at a purchase price per share of \$9.00, for aggregate net proceeds to us of \$11,659,044, after deducting fees payable to Maxim Group LLC, the placement agent, and other offering expenses. These shares were sold through a securities purchase agreement with certain institutional investors. The shares were issued pursuant to an effective shelf registration statement on Form S-3, which was originally filed with the SEC on March 19, 2020, and was declared effective on March 30, 2020 (File No. 333-237269) and a prospectus supplement thereunder.

Future capital requirements will depend upon many factors, including progress with pre-clinical testing and clinical trials, the number and breadth of our clinical programs, the time and costs involved in preparing, filing, prosecuting, maintaining and enforcing patent claims and other proprietary rights, the time and costs involved in obtaining regulatory approvals, competing technological and market developments, as well as our ability to establish collaborative arrangements, effective commercialization, marketing activities and other arrangements. We expect to continue to incur increasing negative cash flows and net losses for the foreseeable future.

Cash Flows

Cash flows from operating, investing and financing activities, as reflected in the accompanying Condensed Consolidated Statements of Cash Flows, are summarized as follows:

	(In thousands)	
	For the nine months ended	
	December 31, 2021	December 31, 2020
Cash provided by (used in):		
Operating activities	\$ (6,668)	\$ (4,526)
Investing activities	(137)	(55)
Financing activities	17,379	7,154
Net increase (decrease) in cash and restricted cash	<u>\$ 10,574</u>	<u>\$ 2,573</u>

NET CASH USED IN OPERATING ACTIVITIES. We used cash in our operating activities due to our losses from operations. Net cash used in operating activities was approximately \$6,668,000 in the nine months ended December 31, 2021, compared to approximately \$4,526,000 in the nine months ended December 31, 2020. The primary components in the \$2,142,000 increase in cash used in our operating activities were a \$1,008,000 increase in our net losses, a \$343,000 increase in prepaid expenses related to our clinical trials and a \$443,000 increase in payments on our accounts payable.

NET CASH USED IN INVESTING ACTIVITIES. We used approximately \$137,000 of cash to purchase laboratory and office equipment in the nine months ended December 31, 2021, compared to approximately \$55,000 in the nine months ended December 31, 2020.

NET CASH PROVIDED BY FINANCING ACTIVITIES. During the nine months ended December 31, 2021, we raised approximately \$17,456,000 from the issuance of common stock. That source of cash from our financing activities was partially offset by the use of approximately \$77,000 to pay for the tax withholding on restricted stock units, for an aggregate increase of cash provided by financing activities of approximately \$17,379,000.

During the nine months ended December 31, 2020, we raised approximately \$7,260,000 from the issuance of common stock. That source of cash from our financing activities was partially offset by the use of approximately \$106,000 to pay for the net share settlement of restricted stock units and net stock option exercises, for an aggregate increase of cash provided by financing activities of approximately \$7,154,000.

As of the date of this filing, we plan to invest significantly into purchases of our raw materials and in our internal manufacturing facility for our clinical trials.

CRITICAL ACCOUNTING ESTIMATES

Use of Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America, or GAAP, requires us to make a number of estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. These estimates and assumptions affect the reported amounts of expenses during the reporting period. On an ongoing basis, we evaluate estimates and assumptions based upon historical experience and various other factors and circumstances. We believe our estimates and assumptions are reasonable in the circumstances; however, actual results may differ from these estimates under different future conditions.

We believe that the estimates and assumptions that are most important to the portrayal of our financial condition and results of operations, in that they require the most difficult, subjective or complex judgments, form the basis for the accounting policies deemed to be most critical to us. These critical accounting estimates relate to revenue recognition, stock purchase warrants issued with notes payable, beneficial conversion feature of convertible notes payable, impairment of intangible assets and long lived assets, stock compensation, deferred tax asset valuation allowance, and contingencies.

There have been no changes to our critical accounting estimates as disclosed in our Form 10-K for the year ended March 31, 2021.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this item.

ITEM 4. CONTROLS AND PROCEDURES.

DISCLOSURE CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act) as of the end of the period covered by this

Based on such evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures are effective in recording, processing, summarizing and reporting, on a timely basis, information required to be disclosed by us in the reports that we file or submit under the Exchange Act and are effective in ensuring that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There have been no changes in our internal control over financial reporting during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

From time to time, claims are made against us in the ordinary course of business, which could result in litigation. Claims and associated litigation are subject to inherent uncertainties and unfavorable outcomes could occur, such as monetary damages, fines, penalties or injunctions prohibiting us from selling one or more products or engaging in other activities.

The occurrence of an unfavorable outcome in any specific period could have a material adverse effect on our results of operations for that period or future periods. We are not presently a party to any pending or threatened legal proceedings.

ITEM 1A. RISK FACTORS.

RISK FACTOR SUMMARY

Below is a summary of the principal factors that make an investment in our securities speculative or risky. This summary does not address all of the risks that we face. Additional discussion of the risks summarized in this risk factor summary, and other risks that we face, can be found below under the heading "Risk Factors" and should be carefully considered, together with other information in this Quarterly Report on Form 10-Q and our other filings with the SEC before making investment decisions regarding our securities.

- We have incurred significant operating losses since our inception and have not generated any revenue. We expect to incur continued losses for the foreseeable future and may never achieve or maintain profitability.
- We will require substantial additional funding to sustain our operations. If we are unable to raise capital on favorable terms when needed, we could be forced to delay, reduce or eliminate our research or device development programs or any future commercialization efforts.
- To achieve the levels of production necessary to commercialize our Hemopurifier product candidate and any other future products, if any, we will need to secure large-scale manufacturing agreements with contract manufacturers which comply with good manufacturing practice standards and other standards prescribed by various federal, state and local regulatory agencies in the U.S. and any other country of use. We have limited experience coordinating and overseeing the manufacture of medical device products on a large-scale.
- Our Hemopurifier product candidate may be made unmarketable prior to commercialization by us by new scientific or technological developments by others with new treatment modalities that are more efficacious and/or more economical than our products. Any one of our competitors could develop a more effective product which would render our technology obsolete.
- Our Hemopurifier product candidate is subject to extensive government regulations related to development, testing, manufacturing and commercialization in the U.S. and other countries. If we fail to comply with these extensive regulations of the U.S. and foreign agencies, the commercialization of our products could be delayed or prevented entirely.
- As a public company with limited financial resources undertaking the launch of new medical technologies, we may have difficulty attracting and retaining executive management and directors.

- We will need to significantly expand our operations to implement our longer-term business plan and growth strategies. We will also be required to manage multiple relationships with various strategic partners, technology licensors, customers, manufacturers and suppliers, consultants and other third parties. The time and costs to effectuate these steps may place a significant strain on our management personnel, systems and resources, particularly given the limited amount of financial resources and skilled employees that may be available at the time.
- Our business prospects and the successful commercial development of our Hemopurifier product candidate depends on our ability to complete studies, clinical trials, obtain satisfactory results, obtain required regulatory approvals. Delays in successfully completing the clinical trials could jeopardize our ability to obtain regulatory approval.
- If we are unable to adequately address these and other risks we face, our business, financial condition, operating results and prospects may be adversely affected.
- Our business could be adversely affected by the effects of health pandemics or epidemics, including the COVID-19 pandemic.

As a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this item. For a discussion of our potential risks and uncertainties, please see the information listed in the item captioned "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2021.

**Should any of our potential products, including the Hemopurifier, be approved for commercialization, certain health reform measures and adverse changes in reimbursement policies and procedures may impact our ability to market and sell our products.*

Healthcare costs have risen significantly over the past decade, and there have been and continue to be proposals by legislators, regulators and third-party payors to decrease costs. Third-party payors are increasingly challenging the prices charged for medical products and services and instituting cost containment measures to control or significantly influence the purchase of medical products and services.

For example, in the U.S., the Patient Protection and Affordable Care Act, as amended by the Health Care and Education Reconciliation Act of 2010, or collectively, PPACA, among other things, reduced and/or limited Medicare reimbursement to certain providers. However, on December 14, 2018, a Texas U.S. District Court Judge ruled that the Affordable Care Act is unconstitutional in its entirety because the “individual mandate” was repealed by Congress as part of legislation enacted in 2017, informally titled the Tax Cuts and Jobs Act of 2017. Additionally, on June 17, 2021, the U.S. Supreme Court dismissed a challenge on procedural grounds that argued the ACA is unconstitutional in its entirety because the “individual mandate” was repealed by Congress. Thus, the ACA will remain in effect in its current form. Further, prior to the U.S. Supreme Court ruling, on January 28, 2021, President Biden issued an executive order that initiated a special enrollment period for purposes of obtaining health insurance coverage through the ACA marketplace, which began on February 15, 2021 and remained open through August 15, 2021. The executive order also instructed certain governmental agencies to review and reconsider their existing policies and rules that limit access to healthcare, including among others, reexamining Medicaid demonstration projects and waiver programs that include work requirements, and policies that create unnecessary barriers to obtaining access to health insurance coverage through Medicaid or the ACA. It is possible that the ACA will be subject to judicial or Congressional challenges in the future. It is unclear how any such challenges and litigation, and the healthcare reform measures of the Biden administration will impact the ACA and our business. The Budget Control Act of 2011, as amended by subsequent legislation, further reduces Medicare’s payments to providers by two percent through fiscal year 2031. However, COVID-19 relief legislation suspended the two percent Medicare sequester from May 1, 2020 through March 31, 2022. Under current legislation, the actual reduction in Medicare payments will vary from 1% in 2022 to up to 3% in the final fiscal year of this sequester. These reductions may reduce providers’ revenues or profits, which could affect their ability to purchase new technologies. Furthermore, the healthcare industry in the U.S. has experienced a trend toward cost containment as government and private insurers seek to control healthcare costs by imposing lower payment rates and negotiating reduced contract rates with service providers. Legislation could be adopted in the future that limits payments for our products from governmental payors. In addition, Congress is considering additional health reform measures. It is also possible that additional governmental action is taken in response to the COVID-19 pandemic. In addition, commercial payors such as insurance companies, could adopt similar policies that limit reimbursement for medical device manufacturers’ products. Therefore, it is possible that our product or the procedures or patient care performed using our product will not be reimbursed at a cost-effective level. We face similar risks relating to adverse changes in reimbursement procedures and policies in other countries where we may market our products. Reimbursement and healthcare payment systems vary significantly among international markets. Our inability to obtain international reimbursement approval, or any adverse changes in the reimbursement policies of foreign payors, could negatively affect our ability to sell our products and have a material adverse effect on our business and financial condition.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

We did not issue or sell any unregistered securities during the three months ended December 31, 2021.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

We have no disclosure applicable to this item.

ITEM 4. MINE SAFETY DISCLOSURES.

We have no disclosure applicable to this item.

ITEM 5. OTHER INFORMATION.

Please see the information under the headings “2021 Target Bonus Awards,” “2022 Annual Base Salaries and Target Bonus Levels,” “Stock Option Grants” and “Non-Employee Director Compensation Policy” in Note 13, Subsequent Events, of the Notes to Condensed Consolidated Financial Statements included in Part I, Item 1 of this Quarterly Report on Form 10-Q, which is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

AETHLON MEDICAL, INC.

Date: February 14, 2022

By: /s/ JAMES B. FRAKES
 JAMES B. FRAKES
 CHIEF FINANCIAL OFFICER
 CHIEF ACCOUNTING OFFICER

Aethlon Medical, Inc.

**Amended and Restated
Non-Employee Director Compensation Policy
February 10, 2022**

Each member of the Board of Directors (the “**Board**”) who is not also serving as an employee of or consultant to Aethlon Medical, Inc. (the “**Company**”) or any of its subsidiaries (each such member, an “**Eligible Director**”) will receive the compensation described in this Amended and Restated Non-Employee Director Compensation Policy for his or her Board service. An Eligible Director may decline all or any portion of his or her compensation by giving notice to the Company prior to the date cash may be paid or equity awards are to be granted, as the case may be. This policy is effective as of February 10, 2022 (the “**Effective Date**”) and may be amended at any time in the sole discretion of the Board or the Compensation Committee of the Board. This policy supersedes and replaces any prior agreement or program that provides for compensation terms as of the Effective Date.

Cash Compensation

The annual cash compensation amount set forth below is payable to Eligible Directors in equal quarterly installments, payable in arrears on the last day of each fiscal quarter in which the service occurred. If an Eligible Director joins the Board or a committee of the Board at a time other than effective as of the first day of a fiscal quarter, each annual retainer set forth below will be pro-rated based on days served in the applicable fiscal year, with the pro-rated amount paid for the first fiscal quarter in which the Eligible Director provides the service and regular full quarterly payments thereafter. All annual cash fees are vested upon payment.

For Eligible Directors who are serving on the Board as of the Effective Date the annual cash compensation shall be deemed effective as of the later of (i) the Effective Date, or (ii) the date such member of the Board was appointed or elected to the Board or to the board of directors of a wholly-owned subsidiary of the Company.

1. Annual Board Service Retainer:
 - a. All Eligible Directors: \$40,000
 - b. Chairman of the Board Service Retainer (in addition to Eligible Director Service Retainer): \$30,000
2. Annual Committee Chair Service Retainer:
 - a. Chair of the Audit Committee: \$15,000
 - b. Chair of the Compensation Committee: \$15,000
 - c. Chair of the Nominating and Corporate Governance Committee: \$8,000
3. Annual Committee Member Service Retainer (not applicable to Committee Chairs)
 - a. Member of the Audit Committee: \$7,500
 - b. Member of the Compensation Committee: \$7,500
 - c. Member of the Nominating and Corporate Governance Committee: \$5,000

Equity Compensation

1. New Eligible Directors: A new eligible director will receive an initial grant of restricted stock units with a grant date fair value of \$75,000 or, at the discretion of the Board, options to acquire shares of common stock. Restricted stock units granted under this provision will be valued based on the average of the closing prices of the common stock for the five trading days preceding and including the date of grant and will vest at a rate determined by the Board in its discretion, typically in equal quarterly installments over one year. Options granted under this provision will be valued at the exercise price, which will be based on the average of the closing prices of the common stock for the five trading days preceding and including the date of grant. Such options will have a term of ten years and will vest at a rate determined by the Board in its discretion.

2. Existing Eligible Directors: At the beginning of each fiscal year, each existing eligible director will receive a grant of restricted stock units with a grant date fair value of \$50,000 or, at the discretion of the Board, options to acquire shares of common stock. Restricted stock units granted under this provision will be valued based on the average of the closing prices of the common stock for the five trading days preceding and including the date of grant and will vest at a rate determined by the Board in its discretion, typically in equal quarterly installments over one year. Options granted under this provision will be valued at the exercise price, which will be based on the average of the closing prices of the common stock for the five trading days preceding and including the date of grant. Such options will have a term of ten years and will vest at a rate determined by the Board in its discretion.

Additional Requirements

In making any future changes to compensation payable to Non-Employee Directors, the Board or Compensation Committee will evaluate the practices of the peer group of companies that serve as references for executive compensation benchmarking, as well as then current general best practices regarding director compensation. The Compensation Committee will review this Policy on at least a biennial basis and engage an independent compensation consultant to assist in such review. Furthermore, the Company will not permit compensation to be paid to Non-Employee Directors for their service as such, other than as provided for in this Policy, unless there are extraordinary circumstances as determined by the Compensation Committee or the Board. All payments to Non-Employee Directors will be disclosed in accordance with applicable law, regulations and exchange or national market system requirements.

EXHIBIT 31.1

CERTIFICATION PURSUANT TO RULE 13a-14(a)/15d-14(a), AS ADOPTED
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Charles J. Fisher, Jr., MD certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Aethlon Medical, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

EXHIBIT 32.1

CERTIFICATION PURSUANT TO RULE 13a-14(b) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED
AND SECTION 1350 OF CHAPTER 63 OF TITLE 18 OF THE UNITED STATES CODE (18 U.S.C. SECTION 1350),
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Aethlon Medical, Inc., or the Registrant, on Form 10-Q for the three-month period ended December 31, 2021 as filed with the Securities and Exchange Commission on the date hereof, I, Charles J. Fisher, Jr., MD, Chief Executive Officer of the Registrant, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Quarterly Report on Form 10-Q, to which this Certification is attached as Exhibit 32.1, fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and

2. The information contained in such Quarterly Report on Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of Aethlon Medical, Inc.

Dated: February 14, 2022

/s/ CHARLES J. FISHER, JR., MD

Charles J. Fisher, Jr., MD
Chief Executive Officer
Aethlon Medical, Inc.

This certification accompanies the Form 10-Q to which it relates, is not deemed filed with the Securities and Exchange Commission and is not to be incorporated by reference into any filing of Aethlon Medical, Inc. under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of the Form 10-Q), irrespective of any general incorporation language contained in such filing.

EXHIBIT 32.2

CERTIFICATION PURSUANT TO RULE 13a-14(b) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED
AND SECTION 1350 OF CHAPTER 63 OF TITLE 18 OF THE UNITED STATES CODE (18 U.S.C. SECTION 1350),
AS ADOPTED PURSUANT TO
SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002

In connection with the Quarterly Report of Aethlon Medical, Inc., or the Registrant, on Form 10-Q for the three-month period ended December 31, 2021 as filed with the Securities and Exchange Commission on the date hereof, I, James B. Frakes, Chief Financial Officer of the Registrant, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Quarterly Report on Form 10-Q, to which this Certification is attached as Exhibit 32.2, fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended, and

2. The information contained in such Quarterly Report on Form 10-Q fairly presents, in all material respects, the financial condition and results of operations of Aethlon Medical, Inc.

Dated: February 14, 2022

/s/ JAMES B. FRAKES

James B. Frakes
Chief Financial Officer
Aethlon Medical, Inc.

This certification accompanies the Form 10-Q to which it relates, is not deemed filed with the Securities and Exchange Commission and is not to be incorporated by reference into any filing of Aethlon Medical, Inc. under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended (whether made before or after the date of the Form 10-Q), irrespective of any general incorporation language contained in such filing.
